Haimanot - we don't think we have any materials that would be helpful. Sorry.

Dave

Dave,

Attached please find an email request from Mr. Randy Brich wanting to get a guidance document on how to conduct a public outreach. Do you know of any guidance document that we can provide to Mr. Brich?

Thank you
Haimanot

Dewey-Burdock Project -- Public Outreach Question

Following up on our telecon I'm wondering if there is any NRC guidance or suggestions on what prospective licensees should be doing in terms of public outreach, including tribal governments. My client, Powertech's Mark Hollenbeck at the Dewey Burdock Project is very interested in this area.

If there isn't anything that NRC thinks that we should be doing that would also be a valuable piece of information. Basically, we are wondering if the Draft Supplemental EIS that NRC is preparing satisfies all the public outreach goals for the project.

We are also wondering when the Draft Supplemental EIS for the Dewey Burdock Project might be published.

Thanks,
Randy Brich
